

Product Information

J1174 – CRYSTO sanipowder

Kitchen sanitising powder

Why to use it

- Extremely versatile and effective for the cleaning and sanitising of food surfaces, food equipment and waste areas.

Where to use it

Can be used in powder form or diluted through spray equipment.

How to use it

Clean off visible debris from surface. Sprinkle Powder onto surface to be sanitised. Use a clean damp cloth and wipe in, paying particular attention to even distribution over the surface and to ingrained areas or joints. Ensure product residue is always rinsed off. Alternatively dilute to required strength and use as directed through spray equipment.

PPE Requirements

SAFETY DATA SHEET

Compilation date:

compiled according to Regulation (EC) No. 453/2010
23/04/15

Revision [CLP]:

1*

1. Identification of the Substance/Preparation and of the Company/Undertaking

1.1. Product identifier

Product form: Mixture
Trade name : **Crysto Sanipower Kitchen Sanitising Powder**
Product group : Trade product
Product code : **J1174**

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.2.1. Relevant identified uses

Main use category : Professional use
Function or use category : Washing and cleaning products (including solvent based products).
A professional, multi-purpose, surface sanitising powder formulated for cleaning and disinfecting hard surfaces and equipment in the brewing, dairy, meat and food processing industries.

1.2.2. Uses advised against

No additional information available

1.3. Details of the supplier of the safety data sheet

Company Name: **Concept-O**
Rathenraw Industrial Estate,
Antrim
BT41 2SJ
Tel: +44 28 9446 2233

2. Hazards Identification

2.1 Classification of the substance or mixture

2.1.1 Classification according to Regulation (EC) No. 1272/2008 [CLP]

Eye Irrit. 2: H319;
Skin Irrit. 2: H315
Contact with acids liberates toxic gas: EUH031

2.1.2 Classification according to Directive 67/548/EEC or 1999/45/EC

Xi; R36/ R38. R41.

2.2 Label Elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard Pictograms (CLP)

Signal word (CLP): Warning
Hazard Statements (CLP): H319: Causes serious eye irritation.
H315: Causes skin irritation.
EUH031: Contact with acids liberates toxic gas

Precautionary Statements (CLP): P102 Keep out of reach of children.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P235+P410 Keep cool. Protect from sunlight.

P301 IF SWALLOWED:
 P313 Get medical advice/attention.
 P302+P352 IF ON SKIN: Wash with plenty of water.
 P332+P313 If skin irritation occurs: Get medical advice/attention.
 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 P337+P313 If eye irritation persists: Get medical advice/attention.
 P402+P404 Store in a dry place. Store in a closed container.

2.3 Other Hazards

Other hazards not contributing to the classification:

No presence of PBT and vPvB ingredients.

The full texts for all R-, H- and EUH-phrases are displayed in Section 16 'Other Information'.

3. Composition/information on ingredients:

Common Name	CAS No./ EC No.	Classification According to Directive 67/548/EEC	Conc (%)
SODIUM CARBONATE	497-19-8 207-838-8	Xi; R36.	15 - 30%
SODIUM TRICLOSENE DIHYDRATE	51580-86-0 220-767-7	Xn; R22, R31; Xi R36/37, R50/53	1- 10 %
TRISODIUM PHOSPHATE CHLORINATED	56802-99-4 234-307-8	Xi; R36/37/38	30- 50 %

Common Name	CAS No./ EC No.	Classification According to (EC) 1272/2008 (CLP)	Conc (%)
SODIUM CARBONATE	497-19-8 207-838-8	Eye Irrit. 2, H319	15 - 30%
SODIUM TRICLOSENE DIHYDRATE	51580-86-0 220-767-7	Acute Tox. 4; H302 Eye Irrit. 2; H319 STOT SE 3; H335 Aquatic Acute 1; H400 Aquatic Chronic 1; H410 EUH031	1- 10 %
TRISODIUM PHOSPHATE CHLORINATED	56802-99-4 234-307-8	Eye Irrit. 2, H319 Skin Irrit. 2, H315 EUH031	30- 50 %

The full texts for all R-, H- and EUH-phrases are displayed in Section 16 'Other Information'.

4. First-aid measures

4.1. Description of first aid measures

First-aid measures after inhalation : IF INHALED: remove victim to fresh air and keep at rest in a position comfortable for breathing. Seek medical advice if you feel unwell.
 First-aid measures after skin contact : IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention, and discontinue use of product.
 First-aid measures after eye contact : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, immediately call a doctor.
 First-aid measures after ingestion : IF SWALLOWED: rinse mouth. Do NOT induce vomiting. Drink plenty of water. Seek medical advice if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation : Coughing, sneezing.

Symptoms/injuries after skin contact :	Redness. Swelling. dryness. Itching.
Symptoms/injuries after eye contact :	Severe pain. Redness. Swelling. Blurred vision.
Symptoms/injuries after ingestion :	Oral mucosal or gastro-intestinal irritation. Nausea. Vomiting. Excessive secretion. Diarrhoea.

4.3. Indication of any immediate medical attention and special treatment needed

Refer to section 4.1.

5. Fire fighting measures

Extinguishing media: Product itself is not explosive or flammable. The product itself will not burn. If anything, packaging may be involved in a fire. Use CO₂, dry chemical powder, alcohol resistant foam or other media appropriate for materials actually involved in the fire. If water is used, contain run-off.

Special hazards: When heated sufficiently, product may decompose to form toxic fumes, including chlorine gases.

Special protective equipment: Fire fighters should wear approved self-contained breathing apparatus and full protective clothing.

6. Accidental release measures

Personal precautions:

Avoid contact with skin and eyes. Avoid inhalation of dust. For appropriate personal protection see section 8.

Environmental precautions:

Although this product is suitable for down the drain disposal it is advised that as much of the solid is contained and scooped up, before final dispersal of any residue with water.

Methods and material for containment and clean-up:

Prevent leakage into sewers or surface water by utilising bunding, absorbent booms, drain covers and soil or sand dikes. Contact appropriate environmental protection agencies, (Environment Agency in the UK) and local water authorities if significant contamination occurs.

For small and large spills: scoop spillage into suitable plastic containers and rework/dispose as per local legislation.

7. Handling and storage

Precautions for safe handling:

Avoid inhalation of dust. DO NOT mix with other chemicals. Never add water directly to this product as it may cause a vigorous reaction or boiling. Always dilute by carefully pouring the product into water. Avoid contact with neat product on skin and eyes. Wear protective clothing as per section 8.

Storage precautions:

Store in closed original container, with tight fitting lid, in a cool and dry area, with good ventilation.

8. Exposure controls / personal protection

8.1. Control parameters

Sodium Carbonate (CAS 497-19-8)

DNEL/PNEC Values

DNEL/DMEL (Workers)

Long-term - local effects, inhalation 10 mg/m³

DNEL/DMEL (General population)

Acute - local effects, inhalation 10 mg/m³

8.2. Exposure controls

8.2.1. Appropriate engineering controls: Not applicable.

8.2.2. Personal protective equipment

Hand protection:

Wear gloves during direct contact and hand-washing.

Eye protection:

Wear eye/face protection.

Skin and body protection:

Wear appropriate long-sleeved clothing to minimize skin contact

Respiratory protection:

Wear appropriate respirator when ventilation is inadequate, P3.

8.2.3. Environmental exposure controls:

No particular measures required

9. Physical and chemical properties

Appearance: Pink powder

Odour: Faint Chlorine

pH (10% aqueous solution) : ca. 11.5

Boiling point: Not determined
Flash point: Not combustible
Evaporation rate: Not determined
Flammability: Not combustible
Explosive properties: Non-Explosive
Oxidising properties: Not determined
Vapour pressure/density: Not determined
Relative density: ca. Not Determined
Water solubility: Soluble
Partition coefficient: Not determined
Auto ignition temperature: Not combustible
Decomposition temperature: Not determined
Viscosity: Not determined

10. Stability and reactivity

Stability:

Stable under normal conditions.

Conditions to avoid:

Reacts violently with strong acids. Generates toxic gas in contact with acid. The product will harden into a solid mass in contact with water and moisture. Avoid exposure to high temperatures or direct sunlight.

Materials to avoid:

Strong acids. Aluminium, Tin, Zinc and their alloys.

Do not mix with other cleaning products unless advised to do so by a professional from the industry.

Hazardous decomposition products

Toxic chlorine gas can be released if heated. When heated, vapours/gases hazardous to health may be formed.

11. Toxicological information

11.1 Information on toxicological effects

Acute Oral Toxicity:

May cause burns in mucous membranes, throat, oesophagus and stomach.

Acute Inhalation Toxicity:

Dusts may irritate throat and respiratory system and cause coughing.

Acute Dermal Toxicity:

Irritating/ damaging to skin

Skin Corrosion/Irritation:

May cause chemical burns of the skin. Prolonged contact may cause tissue damage.

Serious eye damage/eye irritation:

Risk of corneal damage. Visual disturbances including blurred vision.

Sensitisation:

Not expected to provoke a sensitisation reaction.

Repeated Dose Toxicity:

Not data available.

Assessment of STOT single exposure: No data available

Assessment of STOT repeated exposure: No data available

Risk of Aspiration Toxicity: No data available

Sodium Carbonate (CAS 497-19-8)

LD50 oral rat	2800 mg/kg
LD50 dermal rabbit	2001 mg/kg
ATE CLP (oral)	2800 mg/kg bodyweight
ATE CLP (dermal)	2001 mg/kg bodyweight

12. Ecological information

On the basis of raw materials and comparable substances contained in the product the following ecological evaluation is obtained.

Ecotoxicity: This product is intended for wide dispersive use, is not considered harmful to aquatic organisms and is compatible with the down-the-drain disposal route. No known adverse effects on the functioning of water treatment plants under normal use conditions as recommended. The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.

Persistence and degradability: Rapidly degrades to Sodium Chloride by chemical reaction with organic matter in effluent. This product has not been found to cause long-term adverse effects in the environment. The surfactants used in this product are biodegradable in line with the requirements of EU Detergent Regulation (EC) No 648/2004. Data to support this assertion are held

at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

Bioaccumulative potential: The surfactant ingredients of this product are not expected to bioaccumulate.

Mobility in soil: Not determined.

13. Disposal considerations

Consumer products ending up down the drain after use. Observe safe handling precautions and local legislation.

The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment. The surfactants contained in this preparation comply with the biodegradability criteria as laid down in Regulation EC/648/2004 on detergents.

14. Transport information

UN No:	None
Classification:	Not classified as hazardous for transport.
UN proper shipping name:	None
Transport hazard class:	Not subject to ADR/IATA/IMDG/RID codes.
Packing group:	None
Environmental hazards:	None
Special precautions for user:	None

15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1. EU-Regulations

No REACH Annex XVII restrictions. Contains no substance on the REACH candidate list

The surfactant(s) contained in this preparation complies(comply) with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

15.1.2. National regulations

No additional information available

15.2. Chemical safety assessment

No chemical safety assessment has been carried out

16. Other information

Usage and handling instructions are not mentioned on this Material Safety Data Sheet. The labelling of the product is indicated in Section 2.2.

The full text of the R-, H- and EUH-phrases indicated in this safety data sheet are as follows:

R22 Harmful if swallowed.

R31: Contact with acids liberates toxic gas.

R36 Irritating to eyes.

R37 Irritating to respiratory system.

R36/37 Irritating to eyes and respiratory system.

R36/37/38 Irritating to eyes, respiratory system and skin.

R50/53: Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

H302	Harmful if swallowed
H315	Causes skin irritation
H319	Causes serious eye irritation
H335	May cause respiratory irritation
H410	Very toxic to aquatic life with long lasting effects
EUH031	Contact with acids liberates toxic gas.

The information given has been compiled with reference to the Chemicals (Hazard Information & Packaging For Supply) Regulations (CHIP4) 2009 as amended, the Registration, Evaluation, Authorisation & Restriction of Chemicals (REACH) Regulations, as amended, the Control of Substances Hazardous to Health Regulations (COSHH) 2002, as amended, and Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006. This information also harmonises the provisions and criteria for the classification and labelling of substances,

mixtures and certain specific articles within the Community, taking into account the classification criteria and labelling rules of the GHS.

Legal disclaimer: The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.
